Hint 1: Crest 1 has been encoded twice
Hint 2: Crest 1 contains 14 letters
Note: You need to collect all 4 crests, combine and decode to reveal another path.
The combination should be crest 1 + crest 2 + crest 3 + crest 4. Also, the combination is a type of encoded base and you need to decode it.

here we got crest 1

The closet room lead to an underground cave

In the cave, Jill met injured Enrico, the leader of the STARS Bravo team. He mentioned there is a traitor among the STARS Alpha team.

When he was about to tell the traitor name, suddenly a gun shot can be heard and Enrico was shot dead.

Jill somehow cannot figure out who did that. Also, Jill found a MO disk 1 and a wolf Medal

The closet room lead to an underground cave

In the cave, Jill met injured Enrico, the leader of the STARS Bravo team. He mentioned there is a traitor among the STARS Alpha team.

When he was about to tell the traitor name, suddenly, a gun shot can be heard and Enrico was shot dead.

Jill somehow cannot figure out who did that. Also, Jill found a MO disk 1 and a wolf Medal
